

SWS3011 – DOTA Defense of the Ancients

Lab 5

Shen Jiamin

Poster Submission

- Template: <https://canvas.nus.edu.sg/courses/44672/assignments/58793>
 - You cannot remove/modify the existing components.
 - But you can move their position.
 - If you want to change the background colour under the NUS logo, ask for permission from your TA.
- Submission: <https://canvas.nus.edu.sg/courses/44672/assignments/58960>
 - The filename should be ``SWS3011_0x.xxx``.
 - You can submit only once for printing.
 - Do double check before you make the submission.
- If you've changed your project title, report to your TA.

Lab 5

If anyone wants to try Lab 3, we have 3 SDR adapters currently.

- Environment:
 - You can do Part 1 on any Ubuntu instance.
 - Part 2 on Windows in the lab.
 - Part 3 on SEEDs VM.
- Part 1: *Extra information* refers to anything in the certificate, except the public key and the signature.
 - ``openssl x509 -in xxx.crt -noout -text``
- Part 3: Submitting a python script is fine as well. ``t0123456.py``
- **Due: Friday Late**
